

Subject: AWS Student Builder Group at [University Name] | A Resource for Your Students

Dear Professor [LAST NAME],

I'm [NAME], a Student Builder Group Leader for the AWS Student Builder Group here at [UNIVERSITY NAME]. I wanted to introduce our community and share how it might benefit your students.

We're part of a global network of 600+ student-led groups connected to AWS Builder Center, AWS's community platform for builders at every skill level. Our group gives students hands-on experience with cloud and AI technologies through peer-led workshops, projects, and events.

Students who get involved gain access to:

- A peer community of builders, developers, and tech enthusiasts on campus
- AWS Builder Center: a global hub for learning, collaboration, and career development
- Hands-on workshops and events designed to build real technical skills
- A direct connection to one of the world's most recognized technology brands

AWS Builder Center isn't just for students. Faculty can explore it too. It's a great way to connect with a global community of cloud professionals, explore the latest in cloud and AI, and discover resources to bring real-world experience into your curriculum.

We'd love your support in encouraging students to check us out. They can get started at:

<https://community.aws/buildergroups>

I'd welcome the opportunity to share more about what we're doing. Thank you for your time!

Best,

[NAME]

Student Builder Group Leader, [UNIVERSITY NAME]
