

Vyond Video Script for Storytelling Workshop

Why Your Story Matters More Than Your Tech Skills

Length: ~55 seconds

Scene 1 – Desk with laptop

- **Visual:** Young learner (hoodie) looks slightly overwhelmed. **AWS icons** swirl above laptop. Soft blue background.
 - Added to this folder [Icons for Video 1](#)
- **Voiceover (Narrator):** “Here’s the truth: in interviews, people don’t remember the tools you used.”
- **On-screen text:** “Why Your Story Matters”

Scene 2 – Split-screen: Jargon vs Listener

- **Visual:** Left – candidate talks fast; Right – interviewer looks glazed. **Acronym icons** fly out of candidate’s mouth.
 - MQTT, TLS, Amazon S3, Amazon EC2, IAM
- **Voiceover (Narrator):** “Listing every service can overwhelm your listener.”
- **On-screen text:** “Too many details means lost listeners.”

Scene 3 – Candidate tells story clearly

- **Visual:** Candidate calmer, pointing to simple story icons: situation, task, action, result.
- **Voiceover (Narrator):** “Good storytelling isn’t about simplifying the details —it’s about showing impact.”
- **On-screen text:** “Impact > Tools”

Scene 4 – STAR framework reveal

- **Visual:** Large S-T-A-R letters appear with icons beneath each: Situation (bubble), Task (checklist), Action (gear), Result (trophy).
- **Voiceover (Narrator):** “Using STAR helps your listener follow what happened.”
- **On-screen text:** “STAR means your structure”

Scene 5 – Example: Energy-saving story

- **Visual:** Mini animation: lights left on, sensor detects no motion, lights off, energy saved icon.
- **Voiceover (Narrator):** “Next time, give a clear story with impact.”
- **On-screen text:** “Clear. Straightforward. Memorable.”

Scene 6 – Ending: Confident candidate

- **Visual:** Candidate shakes hands with interviewer, soft sparkles in background.
- **Voiceover (Narrator):** “That’s what makes you memorable—and hireable.”
- **On-screen text:** “Tell stories. Show impact.”

Shuttle Overcrowding Story

Length: ~48 seconds**

Scene 1 – Busy campus shuttle stop

- **Visual:** Students crowding around a shuttle stop; buses show “FULL.” One student checks the time, annoyed.
- **Voiceover (Narrator):** “On our campus, the shuttles were always packed. Students were stuck waiting forever.”
- **On-screen text:** “The problem: Overcrowded shuttles”

Scene 2 – Student team brainstorm

- **Visual:** Small group of students at a table with a laptop. Basic icons: bus, people, question marks floating.
- **Voiceover (Narrator):** “Our task? Figure out why certain stops get crowded and help the transportation team fix it.”
- **On-screen text:** “Situation and Task”

Scene 3 – Simple, clear actions

- **Visual:** Icon flow:
people counter sensor, data cloud, clean dashboard with red/yellow/green stop indicators.

- **Voiceover (Narrator):** “We added small sensors to count how many people were waiting and built a basic dashboard to show real-time crowd levels.”
- **On-screen text:** “Action”

Scene 4 – What changed (impact)

- **Visual: Split:**
 - Left: long lines, red icons
 - Right: shorter lines, green checkmarks, students happily boarding.
- **Voiceover (Narrator):** “With that info, operations could adjust routes. Wait times dropped by about 10 minutes.”
- **On-screen text:** “Result: Faster rides”

Scene 5 – Confident ending

- **Visual:** Student confidently explaining this story to an interviewer. Interviewer nods and smiles.
- **Voiceover (Narrator):** “That’s the kind of story that sticks—basic setup, clear actions, real impact.”
- **On-screen text:** “Tell the story. Show the impact.”
